Austin Public Library

Good year sport at 1968

Widest mountain bicycle  
in the world!

World's widest bicycle

For your consideration: By: Bryce Wilson

When you ride your bike you are in a small but definite way saying that you don't believe in the status quo. You will ride down roads not meant for you. You will keep the fifty bucks it takes to fill your tank out of the hands of the oil company. You will put your life on the line for what you believe in. Congratulations, you did something great! ①

Her namesake reflects the many moods while riding:

CLEO = standard fare

NEPTUNE = mellow, calm night rides

GERANAMO = fierce downhill

## RIDE BIKESS!

Let It Be Known...  
If I am killed  
by a Ford 250 or a Hummer or run  
down by a Corvette Doing 110 in a School  
Zone Or an SUV getting 7mpg  
Then I have died  
Doing battle with an implacable foe  
And my soul will be at peace.  
If I am run down  
By the auto pilot of a Tesla. or ⑥  
some other Varily Zero Emissions Vehicle  
That should be in  
the generations later

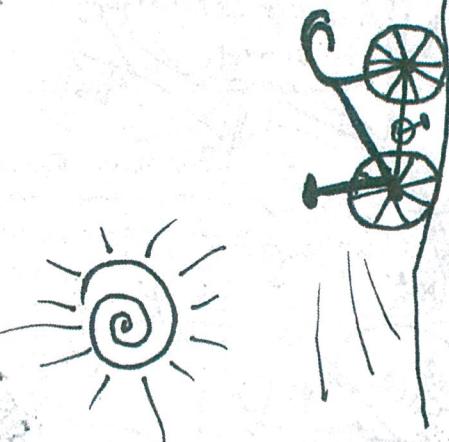

Man my ghost will be pissed.

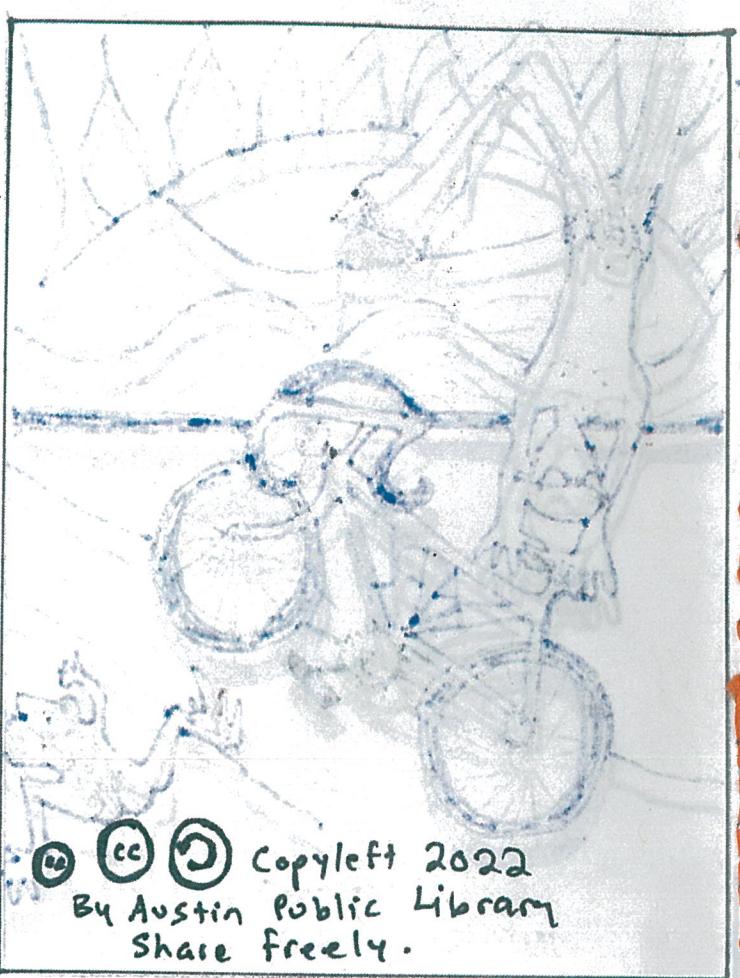

Life is better on  
a bicycle. You feel  
the breeze, you see  
the sights. Nothing  
better than reaching  
a destination powered  
by your own energy.  
Sometimes you don't need  
a destination. You just roll.
